About Me

I am a 27 year old Software Engineer based in County Louth looking to find a fresh opportunity in my career. I have 5 years experience working with many technologies but especially with React, Node and Javascript in general. I have used many other languages and frameworks as listed below and feel I would be a strong asset to any team. I also love to be a team player, can adapt quickly and pride myself on thinking outside the box to ensure optimal problem solving. Any references are available on request and find out more in my website linked above!
